About NAV

NAV are based in the East Midlands, between Nottingham and Derby. Established in 1967, we are a supplier of Video, AV Presentation Equipment and Services to industry, education authorities and corporate organisations throughout the UK.

Our ethos has always been, to provide a comprehensive design, installation and high levels of customer support for all the products and systems we supply. We are not a third party company that simply operates via a list of associated Sub-Contractors, our full-time team of Engineers, Installers, Technicians and Support Staff are highly skilled professionals committed to delivering the very best levels of service available in the AV industry.

The company consists of four departments; Equipment Sales, Hire & Events, System Installations and Media & Video Production, we are one of the original, 'one-stop-shops' for all things Audio Visual and Video. So if you are looking to deal with a professional, and reputable company who puts their customer first, then you'll be talking to the right people.

Est. in 1967

Sales & Installations

Stylish & Effective System Installations, with unrivalled customer service and support.

Our team are product specialists, with in-depth knowledge in all areas of presentation equipment and AV technology.

From professional video products, touch screen control systems and displays to the more traditional AV products such as video projectors and whiteboards, we evaluate all the products we sell, from budget solutions through to high-end brand leaders, only offering you products we believe to be the best there is available.

So many people will simply sell you a product, but that's the easy part, we feel it's our customer support that sets us apart. We operate an extensive support facility with a team of highly skilled personnel providing Installation services and back-up for all our products and systems.

Whether you're completely redesigning a series of conference rooms, or require a new piece of technology seamlessly integrating into an existing installation, we will provide you with a cost effective and elegant solution.

Our AV Installation work is varied, from churches to universities, hospitals to museums, from a simple ceiling mounted projector or wall mounted screen to multi-room projects for education and business - We supply bespoke AV solutions tailored to your specific requirements.

Conferences & Events

Slick and Professional Event Production delivered within your budget.

We offer a complete Event Production Service including Conference Set Design and Build, Sound Systems, Lighting Rigs, Staging and Live Camera coverage of events, all with unrivalled technical support, nationally throughout the UK and internationally for a diverse range of clients. Our experience ranges from International Events for 1000+ delegates, to smaller budget Conferences and Awards Ceremonies for local companies.

Just like us, a lot of production companies do the 'technical' well, so what makes us different? Put quite simply, it is our people and our prices. We have a dedicated team of highly skilled, flexible people who enjoy a challenge! Our customers tell us it is this blend of teamwork and commitment to quality, that helps them deliver more successful conferences and events.

Equipment Hire

Extensive stocks of AV, video, sound & lighting available for daily hire.

We stock a full range of Audio Visual, Video, Sound and Lighting Equipment available for daily and weekly hire, all at excellent value for money rates.

Whether you are holding a local meeting for 6 people, and need a portable projection screen or sound system, or you are organising a full company conference with staging, sound and lighting we have all the equipment available to hire. We promise to give you the best value for your budget, and guarantee to assist you through the hiring process with no obligation help and advice.

All hire equipment is supplied in flight cases or travel bags and available for collection from our Nottingham warehouse, or speak to us for quote on our low-cost delivery and set-up service at your chosen venue by our AV Technicians.

Video Production

Our creativity, value for money and flexible approach brings Video Productions to life.

Cameraman Hire

Do you need to hire a cameraman? Are you producing a company video and editing it yourselves? Or do you simply need a skilled camera operator to record an event?

NAV can help, we have experienced camera operators available at competitive daily rates.

We've been in the film production business since 1967.

Whether you are looking for simple 2-3 minute video introduction for your website, a promotional film, a conference message or a full feature length training production we can help, and we also understand not everyone has a Hollywood budget, although that doesn't mean you should accept second best.

A video shot on location using HD equipment and creatively edited could cost you a lot less than you might imagine. We

live in the real world, our rates start in the hundreds not the thousands!

But cost effective doesn't mean compromised, our attention to detail, value for money and creative approach will bring your video project to life. Unlike some we won't try to up sell a job if its not required, if you do need a larger crew, a scriptwriter or director then we can help, but some of our most successful work is produced by a single crew cameraman and editor, who will work with you to deliver a video production that comes in on-budget, grabs your audiences attention and delivers its message.

Media Services

We offer a wide range of Media, Video and Creative Production Services.

Internet Video

Are you producing a company video for your website? Youtube or a Social Media site? Professionally created content will help you engage with your target audience. Maybe you want to talk to your customers, or inspire your employees? We offer value for money internet video production using the latest HD kit for great quality online content.

Media Transfers

We convert and transfer most types of traditional media i.e Cine Films, VHS tapes and most Camcorder tapes to DVD, or your chosen digital format.

Video Editing

Our video editing suites, with Operators, are available for hire by the hour. Maybe you've filmed a product video or your own promotional material? Even the most basic content can be enhanced with titles or graphics, a great music track or even a professional voiceover.

Audio Editing

Many people have a collection of old cassette tapes, LPs or reel-to-reel tapes. Our audio Engineers can re-master your recordings using digital equalisation, compression and a wide range of other processes, and transfer to most digital file formats. (subject to copyright)

DVD Production

NAV offer a complete DVD Duplication Service. We can convert most popular video formats to DVDR/W. We also offer professional bulk DVD production to full retail standards, including on-disc printing, cases and shrink wrapping.
